

Sample Rating Scale - scanning for a high resolution project

Level 1

Assignment is incomplete or done incorrectly.

Level 2

Two images have been scanned at the appropriate resolution and placed into a suitable document for printing at a high resolution. At least one photo has been enlarged and then cropped to bring focus onto one element of the original image.

Level 3

Three or more images have been scanned at an appropriate resolution and placed into a suitable document for printing at a high resolution. At least one photo has been enlarged and then cropped to bring focus onto one element of the original image, while maintaining the sharpness of the image. File names of images and documents are clear and organized appropriately in the student's folder.
